

Declaration

Before you sign please check to ensure every question has been answered (enter N/A if not applicable). Delays will be avoided by answering all questions fully and supplying all requested information.

Works completed

I/We declare that the following measures have been undertaken and completed/ or will be undertaken within six months of completion of my mortgage

Please tick all that apply.

- Higher than building regulations standards roof, floor or wall insulation. Roof insulation of up to 300mm deep (where possible)
- Double or Triple glazing
- Condensing Boiler (SEDBUG 'A' rating) installed
- Solar Water Heating. Solar panels can be used to provide up to half of household's hot water needs
- Installing low water-use appliances, (eg. low flush toilets)
- Out perform carbon-emissions performance target by at least 1%
- Low energy lighting throughout (LED or compact fluorescent lamps only)
- Real time electricity use display
- Sustainable drainage/permeable surfaces and landscaping (for urban areas)
- Rain water harvesting or Wind turbines (although may not be appropriate in certain circumstances)
- Biomass heating. Biomass (and heat pumps) have the most potential in off-gas areas in place of oil heating. If you have gas, a wood pellet stove may still be a good choice for a secondary heating system (i.e a main room heater)

I/We confirm that the above installations have taken place or will take place within six months of completion. I/We understand the Society may request confirmation of any installation that has been carried out. This could be in the form of receipts, warranties, guarantees or other proof.
